Hey DC,,.

I'm a over the road truck driver . I visit every single state in this wonderful country of ours and I as well as many on millions of other truck drivers depend on these reports. These reports are a must for all over the road Truck Drives , they give us information of the different cites before we get to them to avoid problem with traffic and so on. As Millions of american's think of Trucking as the BACKBONE of the this great country and without XM Road reports you would be Harming the BACKBONE of the USA . SO why don't we just forget about this issue and move one to real Problems with this country .

Thanks ...

Huey Sikes ..
